

## Whitepaper: Distribuidora Elian (DITE)

### 1. Introduction: What is Distribuidora Elian (DITE)?

**DITE** is a digital token created and managed by **Distribuidora Elian SRL**, a company founded in 2006 in Higüey, La Altagracia Province, Dominican Republic. Our core mission is to promote the well-being of all participants in our business by equitably sharing the results with our associates, supervisors, employees, and shareholders, always through highly professional mechanisms.

The DITE token is designed to be the primary digital medium for transactions, payments, and exchanges within our business ecosystem. It can be used to purchase our products and services, acting as a virtual currency that facilitates business for our independent sales associates.

### 2. Our Vision and Values

**Mission:** Our mission is to offer the best business opportunity to our independent catalog sales entrepreneurs with a wide variety of exclusive and frequently used products. We operate with principles of hard work, honesty, and respect, using the DITE token as the digital medium for transactions that can be exchanged for our products and services.

**Vision:** We aim to provide our associates with a way to help people increase their income and quality of life. We want to empower individuals around the world to discover their potential and achieve their goals by offering better products and incentives. The DITE digital token will serve as the easiest way to transfer goods and services digitally within our network.

#### **Values:**

- Honesty
- Empathy
- Respect
- Responsibility
- Integrity
- Trust
- Loyalty
- Customer Service

### 3. Distribuidora Elian's Product Portfolio

DITE can be used to purchase a diverse range of products, including:

- Beauty Products
- Cleaning Products
- Perfumes and Creams

### 4. How the Distribuidora Elian SRL Company Operates

Currently, Distribuidora Elian has a network of over **400 authorized distributors** in the Dominican Republic, with a direct consumer impact of over **600,000 people**.

#### Company Objectives:

- **Distribution Network:** Our goal is to reach **3,000 authorized distributors** by 2029.
- **Consumer Base:** Our goal is to reach **3.5 million consumers** of our products and services within the next five years, by 2031.

### 5. How DITE Works as a Digital Token

DITE is a digital token that operates on the **Ethereum blockchain** using the **BNB Smart Chain Mainnet**. It is compatible with popular cryptocurrency wallets like **MetaMask** and **Trust Wallet**.

The process is simple and efficient:

1. You purchase DITE tokens and send them to your wallet.
2. The transaction is validated on the blockchain in a matter of seconds.
3. The recipient receives the funds almost instantly.

The complex technology works behind the scenes to make your experience instantaneous and effortless.

### 6. Getting Started with DITE

Your journey with DITE begins with three simple steps:

1. **Set up a wallet** (like MetaMask or Trust Wallet).
2. **Obtain a small amount of DITE** to get started.
3. **Test your first transaction** by sending DITE or interacting with an application compatible with our network.

Each step builds your understanding and confidence. Start with the basics and expand as you explore—there's no rush to do more than you're prepared for.

---

## 7. DITE Tokenomics and Mechanisms

**Token Distribution:** The total supply of DITE is **400 trillion** tokens, distributed as follows:

- **30%** for advertising and marketing.
- **40%** for the exchange market.
- **30%** will be held as a company reserve for future negotiations.

**Token Mechanism:** To ensure stability and value, DITE incorporates a reward and burn mechanism:

- **Rewards:** Every wallet holding approximately **50 million tokens** will receive a reward. This is equivalent to **0.10%** of the value of each transaction, distributed among all eligible wallets.
- **Token Burn:** Another **0.10%** of each transaction is burned, which reduces the circulating supply over time and increases the token's value.
- **Charity:** A third **0.10%** of each transaction is accumulated in a specific wallet to be donated to charitable institutions.
- **Value Appreciation:** **5%** of the company's net profits will be used to buy back DITE tokens from the market and burn them. This will be executed every six months to further reduce the supply and increase the value of our digital token.
